

SigLite 1x5 T-S460 Series

Featured: T-S460-HSX-R

The Topaz® SigLite® 1x5 (T-S460®) is a small, pressure-sensitive, low-cost electronic signature pad. It features all the high quality biometric and forensic capture techniques of a SignatureGem® 1x5 signature pad but with a touchpad and stylus in place of the active electromagnetic pen and sensor, making it both space-saving and cost-efficient.

The touchpad sensor (protected by an optional replaceable overlay for longer life) reads the digital, binary pressure of the stylus tip and transmits signature data to the computer at high speed for an easy, accurate electronic signature.

Key Features:

- Replaceable pad overlay
- GemGuard® antimicrobial stylus
- Bluetooth and biometric ID specialty models available
- Lower-cost, pressure-sensitive technology
- Signature seen on the computer screen only
